

DSU DevHack 2.0 – Kroolo's Track Participant Guide

Welcome to Kroolo's Track at DSU DevHack 2.0 — your chance to tackle real-world industry challenges directly from a leading innovation-driven company.

This track offers unique problem statements, career opportunities, and the chance to win prizes both from Kroolo and DSU DevHack 2.0's main pool.

Why Participate in Kroolo's Track?

- Work on high-impact, industry-relevant challenges.
- Gain direct visibility with Kroolo's product and engineering teams.
- Stand a chance to secure career opportunities with Kroolo.
- Get exclusive Kroolo prizes on top of DSU DevHack 2.0 awards.

Themes & Problem Statement

Below are the 8 challenge areas provided by Kroolo, split into Vertical and Horizontal tracks:

Vertical Tracks

1. Education

- Problem: Build scalable solutions to enhance learning engagement, personalized content delivery, and student performance tracking.
- [Attached PRD](#)
-

2. Insurance

- Problem: Create customer-centric tools for policy management, claim processing, and fraud detection using AI/automation.
- [Attached PRD](#)

3. Retail / eCommerce

- Design data-driven tools to optimize product discovery, inventory management, and personalized shopping experiences.
- Retail / eCommerce (think of 1–2 use cases)

Horizontal Tracks

4.AI Call Center Solution

- Problem: Build AI-powered virtual assistants capable of handling high call volumes with contextual and empathetic responses.
- [Attached PRD](#)

5.AI Business Service Management

- Problem: Develop AI-driven business service automation tools to improve operational efficiency and analytics.
- [Attached PRD](#)

6.Vibe Coding Platform

- Problem: Build a “prompt-to-web-app” solution where non-technical users can generate functional web applications from natural language descriptions.
- [Attached PRD](#)

7.Voice Solutions

- Develop voice-first solutions for accessibility, productivity, or business workflows.
- Innovatively Think of Voice Solutions with 1-2 Use Cases

8.Product Hunt—Inspired Build

- Find few #1 ProductHunt winners in the last 6 months and build a similar product / solutions like that

Submission Guidelines

- **Format:** Follow DSU DevHack 2.0's official submission template (max 4 slides + optional prototype link).
- **Deadline:** Same as the DSU DevHack 2.0 idea submission deadline.
- **How to Submit:** Mention “Kroolo's Track” in the Project Properly and submit only on the Idea Submission Form sent via mails!

Evaluation Process

- All evaluation for this track will be done **exclusively by Kroolo**.
- Submissions will be judged on:
 - Problem Understanding & Innovation
 - Technical Implementation & Scalability
 - User Experience & Design
 - Business Feasibility & Impact
- **Top 5 teams** from Kroolo's Track will be offered **full-time opportunities** at Kroolo, subject to their hiring criteria.

Important Notes

- Participants in Kroolo's Track are still eligible for **all DSU DevHack 2.0 main prizes**.
- Detailed PRDs are attached to this document for in-depth understanding.
